*To Shareholders of Prospex Oil and Gas Plc (“**Prospex**” or the “**Company**”)*

21 April 2016

Dear Sir or Madam,

Circular and Notice of General Meeting of 18 April 2016 – supplemental letter

The Company has given notice to shareholders of a General Meeting to be held at the offices of Peterhouse Corporate Finance Ltd, 3rd Floor, New Liverpool House, 15 Eldon Street, London, EC2M 7LD at 9 a.m. on 11 May 2016 in a circular (the “**Circular**”) also incorporating a notice of general meeting (“**Notice of General Meeting**”) dated 18 April 2016. The Circular was posted to shareholders on 19 April 2016. You should by now have received the Circular by post.

This letter sets out certain additional information by way of explanation to the resolutions proposed in the Circular and should be read as supplemental to the explanatory text in the Circular. The Notice of General Meeting and the text of the resolutions themselves remain unchanged. Defined terms used in the Circular shall, unless the context requires otherwise, have the same meanings in this letter.

Shareholders wishing to appoint a proxy for the General Meeting should follow the instructions set out in the Notice of General Meeting and use their personalised form of proxy accompanying the Circular.

RESOLUTION 1 – TO REAPPROVE AND MAKE AN AMENDMENT TO THE INVESTING POLICY

Note – this text replaces and should be read in place of the explanation to Resolution 1 included in the Circular.

Background to and reasons for the Proposals

As announced on 13 April 2016, Prospex is deemed to have satisfactorily implemented its investing policy (as adopted on 15 April 2015). However, as the Company moves forward into the next stage of its development it is seeking a number of changes to enable it to take the steps that the Directors believe will lead to an increase in shareholder value. Firstly, the directors are seeking shareholder approval for the existing investing policy with an amendment to that investing policy stating that the Company will

undertake an acquisition or acquisitions that will constitute a reverse takeover pursuant to AIM Rule 14 of the AIM Rules for Companies within 12 months of the date of the General Meeting.

Consequences of the Proposals

If the investing policy is not approved by shareholders then, in accordance with the AIM Rules, Prospex would be expected to propose further amendments to its investing policy and seek shareholder approval for those amendments, as soon as possible. A resolving action such as the return of funds to shareholders would also be considered if consent is again not obtained.

If the Company was to progress with an acquisition or acquisitions that would lead to a reverse takeover under AIM Rule 14, then any agreement which would effect a reverse takeover would be:

- conditional on the consent of its shareholders being given in general meeting;
- notified without delay disclosing the information specified by Schedule 4 to the AIM Rules; and
- accompanied by the publication of an admission document in respect of the proposed enlarged entity and convening the general meeting.

In addition, if shareholder approval is given for the reverse takeover, trading in the AIM securities of the AIM company would be cancelled, and the enlarged entity would seek admission to trading on AIM.

Further announcements would be made in due course, and as appropriate, if any such acquisition or acquisitions were identified.

Investing Policy

The Company's Investing Policy is to invest in and/or acquire companies and/or projects within the natural resources and/or energy sector with potential for growth and/or income. The Company may also directly apply for new exploration licences or invest in existing licences. It is anticipated that the geographical focus will primarily be Europe, however, investments may also be considered in other regions to the extent that the Directors consider that valuable opportunities exist and returns can be achieved.

In selecting investment opportunities, the Directors will focus on businesses, assets and/or projects that are available at attractive valuations and hold opportunities to unlock embedded value. Where appropriate, the Directors may seek to invest in businesses where it may influence the business at a board level, add their expertise to the management of the business, and utilise their significant industry relationships and access to finance; as such investments are likely to be actively managed.

The Company's interests in a proposed investment and/or acquisition may range from a minority position to full ownership and may comprise one investment or multiple investments. The proposed investments may be in either quoted or unquoted companies; be made by direct applications, acquisitions or farm-ins; and may be in companies, partnerships, earn-in joint ventures, debt or other loan structures or direct or indirect interests in assets, projects or licences. The Directors may focus on investments where intrinsic value can be achieved from the restructuring of investments or merger of complementary businesses.

The Directors expect that investments will typically be held for the medium to long term, although short term disposal of assets cannot be ruled out if there is an opportunity to generate an attractive return for Shareholders. The Directors will place no minimum or maximum limit on the length of time that any investment may be held.

There is no limit on the number of projects into which the Company may invest, and the Company's financial resources may be invested in a number of propositions or in just one investment, which may be deemed to be a reverse takeover under the AIM Rules. The Directors intend to mitigate risk by

appropriate due diligence and transaction analysis. Any transaction constituting a reverse takeover under the AIM Rules will also require Shareholders' approval. The Directors consider that as investments are made, and new promising investment opportunities arise, further funding of the Company may also be required.

Where the Company builds a portfolio of related assets it is possible that there may be cross holdings between such assets. The Company does not currently intend to fund any investments with debt or other borrowings but may do so if appropriate. Investments in early stage assets are expected to be mainly in the form of equity, with debt potentially being raised later to fund the development of such assets. Investments in later stage assets are more likely to include an element of debt to equity gearing. The Directors may also offer new Ordinary Shares by way of consideration as well as cash, thereby helping to preserve the Company's cash for working capital and as a reserve against unforeseen contingencies including, for example, delays in collecting accounts receivable, unexpected changes in the economic environment and operational problems.

The Directors will conduct initial due diligence appraisals of potential business or projects and, where they believe further investigation is warranted, intend to appoint appropriately qualified persons to assist. The Directors believe they have a broad range of contacts through which they are aware of various opportunities which may prove suitable, although at this point only preliminary due diligence has been undertaken. The Directors believe their expertise will enable them to determine quickly which opportunities could be viable and so progress quickly to formal due diligence. The Company will not have a separate investment manager. The Company proposes to carry out a comprehensive and thorough project review process in which all material aspects of a potential project or business will be subject to rigorous due diligence, as appropriate. Due to the nature of the sector in which the Company is focused it is unlikely that cash returns will be made in the short to medium term; rather the Company expects a focus on capital returns over the medium to long term.

Proposed Additional Paragraph to Investing Policy:

The Company will undertake an acquisition or acquisitions within the natural resources and/or energy sector, which constitutes a reverse takeover under AIM Rule 14 of the AIM Rules for Companies within 12 months of the date of the general meeting.

The board will invest these funds in accordance with the stated investing strategy of the Company. The board believe that the Company's work in the last 12 months and improving sector sentiment should give rise to a number of exciting opportunities in the short to medium term if sufficient funds can be identified.

Yours sincerely,

Notice of General Meeting

Dear Shareholder

I am pleased to be writing to you with details of a General Meeting which we are holding at the offices of Peterhouse Corporate Finance Ltd, 3rd Floor, New Liverpool House, 15 Eldon Street, London, EC2M 7LD at 9 a.m. on 11th May 2016. The formal Notice of GM is set out at the end of this document.

If you would like to vote on the Resolutions but cannot come to the General Meeting, you can appoint a proxy to exercise all or any of your rights to attend, vote and speak at the General Meeting by using one of the methods set out in the notes to the Notice of GM. Appointing a proxy will not prevent you from attending and voting in person at the General Meeting.

The purpose of this letter is to explain certain elements of the business to be considered at the meeting. Resolutions 1 and 2 will be proposed as ordinary resolutions. Resolution 3 will be proposed as a special resolution.

Explanations:

RESOLUTION 1 – TO REAPPROVE AND MAKE AN AMENDMENT TO THE INVESTING POLICY

As a result of discussion with the AIM Team of the London Stock Exchange via the Company's NOMAD the Company seeks re-approval by the shareholders of the Investing Policy that was adopted by the Company on 14 April 2015 (the "**2015 Policy**") with this sentence appended at the end of the 2015 Policy final sentence:

"The Company will undertake an acquisition or acquisitions within the natural resources and/or energy sector, which constitutes a reverse takeover under AIM Rule 14 of the AIM Rules for Companies within 12 months of the date of the general meeting".

If the resolution is passed, the entire reapproved and amended investment policy will read:

“The Company's proposed new Investing Policy is to invest in and/or acquire companies and/or projects within the natural resources and/or energy sector with potential for growth and/or income. The Company may also directly apply for new exploration licences or invest in existing licences. It is anticipated that the geographical focus will primarily be Europe, however, investments may also be considered in other regions to the extent that the Directors consider that valuable opportunities exist and returns can be achieved.

In selecting investment opportunities, the Directors will focus on businesses, assets and/or projects that are available at attractive valuations and hold opportunities to unlock embedded value. The proposed investments may be in either quoted or unquoted companies; be made by direct applications, acquisitions or farm-ins; and may be in companies, partnerships, earn-in joint ventures, debt or other loan structures or direct or indirect interests in assets, projects or licences. The Directors may focus on investments where intrinsic value can be achieved from the restructuring of investments or merger of complementary businesses.

The Directors expect that investments will typically be held for the medium to long term, although short term disposal of assets cannot be ruled out if there is an opportunity to generate an attractive return for Shareholders. The Directors will place no minimum or maximum limit on the length of time that any investment may be held.

There is no limit on the number of projects into which the Company may invest, and the Company's financial resources may be invested in a number of propositions or in just one investment, which may be deemed to be a reverse takeover under the AIM Rules. The Company will undertake an acquisition or acquisitions within the natural resources and/or energy sector, which constitutes a reverse takeover under AIM Rule 14 of the AIM Rules for Companies within 12 months of the date of the general meeting”

This is the proposed Investment Policy.

RESOLUTION 2 – ALLOTMENT OF SHARE CAPITAL

At the last General Meeting of the Company held on 14 July 2016, the Directors were given authority to allot Ordinary Shares up to a maximum nominal amount of £1,000,000 representing approximately 250 per cent of the Company's then issued ordinary share capital.

Your Board considers it appropriate that as an oil and gas exploration investing company, being a capital intensive sector, a further authority be granted to allot ordinary shares in the capital of the Company up to a maximum nominal amount of three million pounds (£3,000,000) representing an authority to allot approximately 750 per cent of the Company's issued ordinary share capital as at 15th April 2016 (the latest practicable date before publication of this letter) during the period of five years following the passing of this Resolution.

As at the date of this letter the Company does not hold any Ordinary Shares in the capital of the Company in treasury.

RESOLUTION 3 – DISAPPLICATION OF STATUTORY PRE-EMPTION RIGHTS

Resolution 3 will empower the Directors to allot Ordinary Shares for cash on a non-pre-emptive basis up to a maximum nominal value of three million pounds (£3,000,000), representing an authority to allot approximately 750 per cent of the issued ordinary share capital of the Company as at 15th April 2016 (the latest practicable date before publication of this letter).

RECOMMENDATION

The Board considers the Resolutions are likely to promote the success of the Company and are in the best interests of the Company and its Shareholders as a whole. The Directors unanimously recommend that you vote in favour of the Resolutions as they intend to do in respect of their own beneficial holdings which amount in aggregate to 5,410,162 Ordinary Shares representing approximately 13.3% per cent of the existing issued Ordinary Share capital of the Company.

Yours sincerely
